U.S. Department of Agriculture

WE ARE endeavoring this year to give utmost aid:—to the establishment of successful vegetable gardens where vegetables have never before grown; to help land owners turn idle farms into valuable food producing units; to assist in soil erosion problems and advise the reforestation of land which is unsuitable for growing farm crops.

Therefore, we are carrying a full line of Burpee's seeds, many farm and forest seeds and garden tools.

Many of our prices have been sharply reduced, and in order to serve our friends and clients as efficiently as possible during the present troubled times, we have opened an office in Narberth at 917 MONTGOMERY AVENUE. TELEPHONE NARBERTH 2325.

We are able to serve you in preserving your priceless trees and shrubs and we will be at the office to consult with you on general garden problems.

Especially important in these times is the development of gardens which give the maximum amount of food and joy with the minimum of maintenance.
